

# Lean Leader Training

Join this interactive virtual workshop to build the skills and confidence to lead Lean initiatives in your organization.

You will learn practical strategies to inspire cultural change, apply Lean methods effectively, and create a mindset of continuous improvement within your team.

## Who is this Course For?

This course is ideal for professionals who want to strengthen their ability to lead Lean initiatives and drive improvement:

- **Business leaders** aiming to build a lasting culture of continuous improvement
- **Process improvement professionals** looking to deepen their knowledge of Lean tools and align efforts with strategic goals
- **Project managers and team leaders** seeking practical ways to streamline workflows and boost team efficiency
- **Operations and production supervisors** who want to sharpen problem-solving skills and apply sustainable Lean practices.

## Learning Objectives

By the end of the Lean Leader Training, participants will be able to:

### Understand Lean Foundations

- Grasp the core principles of Lean Thinking and the Lean Transformation process.
- Develop a Lean mindset to support sustainable improvement.

### Apply Continuous Improvement Tools

- Use the **PDCA (Plan-Do-Check-Act)** cycle to drive ongoing improvement.
- Master **A3 Management** for effective problem-solving and process optimization.
- Create, implement, and evaluate action plans with a focus on measurable results.

### Lead with Lean

- Learn and apply key **Lean Leadership** principles.
- Understand the Lean Leadership Model and how it supports cultural transformation.
- Implement Leader Standard Work to drive consistency and accountability.
- Build strategies to lead change and support team engagement.
